

Fitting Instructions: Front Medallion

Part Number: 601890

Description: Front Medallion, Red/Black

Applications: Triumph TR2: 1953-55

Instructions

Due to the availability in reasonable quantities of the correct size material for the fixing peg the manufacturer has been forced to change the design to incorporate a threaded bar to fix this badge.

We have included a plastic nut which will act as a weak link to eliminate the risk of damage by overtightening if a steel nut was used therefore you must use the plastic nuts included with this badge, we also suggest that a little sealant is applied to the thread to stop the nut working loose.
