

## Fitting Instructions: Front Medallion

**Part Number:** 604272

**Description:** Front Medallion, Red/Black

**Applications:** Triumph TR3: 1955-57

### Instructions

Due to the availability in reasonable quantities of the correct size material for the fixing peg the manufacturer has been forced to change the design to incorporate a threaded bar to fix this badge.

We have included a plastic nut which will act as a weak link to eliminate the risk of damage by overtightening if a steel nut was used therefore you must use the plastic nuts included with this badge, we also suggest that a little sealant is applied to the thread to stop the nut working loose.
